

Lovely Literacy

This week the children have really enjoyed reading *The Teeny Weeny Tadpole*. We explored the life cycle of a frog and talked about how tadpoles grow and change over time. The children loved joining in with the story, discussing the different animals, and taking part in fun activities linked to the book such as jumping/leaping like the different animals in the story.

Marvellous Maths

This week the children have been exploring 2D shapes by using them to create their own pictures and patterns. They enjoyed identifying and naming different shapes whilst developing new mathematical vocabulary such as "rotate". The children showed great creativity and confidence as they experimented with moving and arranging the shapes in different ways.

• 🌟 Weekly Highlights 🌟

- 🦋 Feeding our new butterflies and watching them eat and grow
- 🌱 Using our imaginations to make our own race track!
- 🍃 Creating a beautiful nature wall in the woodland using natural materials we collected
- 🎨 Colour mixing with paints to create different species of frog pictures
- 🎳 Playing bowling games outside to support our learning of number bonds to 10
