

Lovely Literacy

This week we have been reading Superworm. The children enjoyed talking about how kind, helpful and brave Superworm was and discussed the ways he helped his friends. We also listened carefully for rhyming words throughout the story and had fun spotting different rhyming pairs. As part of our writing, the children wrote sentences explaining why they think Superworm is super.

Marvellous Maths

In Maths, we have been exploring sharing and grouping and learning what it means for amounts to be equal. The children enjoyed using teddy bears at a picnic to practise sharing objects fairly and ensuring each teddy had the same amount. They then applied this learning to their play, demonstrating their understanding that sharing is caring and helping one another to share resources equally.

• 🌟 Weekly Highlights 🌟

- Set up our very own wormery and learned about where worms live and how they help our environment 🐛
- Created worms using playdough, developing our fine motor skills and creativity 🎨
- Celebrated Miss Gough's special birthday together and made her feel extra special 🎂
- Posed beautifully for our class photograph and showed off our best smiles 📷
- Used string worms dipped in paint to create exciting marks and patterns in our artwork 🖍️
